Our Rebuilding Sale!

If you should investigate our rebuilding it might seem to you like a little Babylon. The only difference is that the curpenters the fron men, the brick artists, the elevator experts and all helpers understand each other so well that there isn't a single hitch or a particle of confusion regarding the progress of their work, and so it is with this sale. Every buyer and every assistant knows that the speedy clearance of their respective stocks is demanded by this firm. "Consider nothing, cost, profit or anything else," was the stern command made a few days ago by the head of this concern. What we want is empty shelves and counters, so that when the fall season dawns upon the public, a scene of new and attractive goods will meet their gaze at every turn, so here goes for another day of sacrifices:

Percale and Lawn Wrappers.

Here is a stock which shows that good judgment has been used in buying, ere isn't a single style, pattern or color which shows that indifference has en used in selecting them. To buy right is to sell quick. Here are three endid items which are specially priced:

Twenty-five dozen percale wrappers, the very newest colorings and patterns, made with full cut flounce, ruffles over the shoulder and braid trimmed, they have separate fitted waist linings, and are splendid 69° values at \$1.00, which we shall sell for...... Thirty-five dozen lawn and percale wrappers, including some plain white lawns—the fancy ones are all good colors and patterns, they are made with very deep founce, braid trimming, perfect fitting, and neatly finished; \$1.50 value, which we shall sell for

Fifteen dozen fine lawn wrappers, light and dark colorings, exfra deep flounce, ruffle and lace trimmed, made in the best possible manner, cut very full over the hips, every size, the real worth is \$1.25

This department is located second floor, front, Busy Corner Building.

Taffeta Silk Waists at \$3.98.

AFFAIRS OF THE DISTRICT.

An Exception to the Regulations for Assessing Water Rents.

An Old Ruling of the Engineer Com. them missioner Revived-Garbage Com-

frontage.

the Engineer Commissioner, in forwarding calls attention to the practice of the En-gineer Department under a ruling of the Engineer Department under a runng of the Engineer Commissioner of several years standing, that the water rent is to be based upon the least dimensions of the general plan of the house. He says that the conformity with that ruling the bills sea portion of the journey, on his actual for the present year and for the two years return to the United States. If for any immediately preceding are erroneous, and Captain Harding recommends that bills based upon the fifteen feet depth of the house be rendered, and that the amount paid in excess of the true amounts be refunded.

This recommendation has received the approval of the Engineer Commissioner, Capt. H. C. Newcomer acting, and has been forwarded to the Board.

Columbia are hereby authorized to furnish Potomac water without charge to orphan asylums and charity schools * * * to an amount to be fixed in each case by the said Commissioners, not to exceed

A large part of the residents of the Dishension that communications relating to the removal of garbage, dead anim etc., should be addressed to the Health Department. Such is not the case. Under an order of the Commissioners of more than a year ago the supervision over the from the city was turned over to the

Department of Street and Alley Cleaning.

Notwithstanding this fact, the mails of the Health Department contain several complaints daily about the collection of garbage, askes, or dead animals, and these all have to be turned over to the Department of Street Cleaning. It often happens that notices of dead animals are sent to the Health Office, thus causing delay in their removal.

At the suggestion of the Health Officer yesterday Commissioner Ross requested the publication of the above facts for the information and guidance of the people of the District.

Senior Assistant Chief Engineer Belt, of the Fire Department, har arranged to test the utility of standpipes, and has selected the business establishment of Messrs. W. B. Moses & Sons, Eleventh and F Streets, for the purpose. This building is equipped with standpipes running to the roof of the structure, and Chief Belt proposes to attach one of the Fire Department's steam engines to the standples, noting the time required to make the connections and the force of water when it reaches the roof of the building and also at the different floors. Then he will have the hose running from the plug and steamer run up to the top of the building, compar-ing the time required as well as the force of water at the different points with the results obtained from the use of stand-olines.

pipes.

The trial will take place Friday morning next at 5:39, that hour being selected as the one which will least interfere with traffic on the streets. Chief Belt is of the opinion that better time can be made with and better results obtained from the use of the hose than from standpipes, and believes Friday's trial will so demonstrate.

ion for permission to operate a merry-go-round on the vacant lot in square 1 sunded by I. K. Twenty-seventh an nounced by I. R. Iweny-screen and lewnty-eighth Streets northwest. OWNERSHIP OF A LUNCHROOM.

Partners Go Into Court to Settle a

Rufus E. Boyd yesterday filed suit in the Supreme Court of the District against Ecc. I Scott, for the purpose of having the court compel the latter to specifically perform a contract entered into between

plaints Should Be Addressed to tered into partnership, it is stated, for Superintendent of Street Cleaning. conducting a lunchroom at 430 Eleventh Street northwest. According to the terms J. H. McCalley, of 123 Seventh Street of the agreement Boyd states that in the northeast, recently complained of the excessive water rent upon his premises. He withdraw from the business he should stated that the house is 31 feer wide and be required to give sixty days notice to 16 feet in depth, and that it is a two- the other. It was also agreed, in the story and basement house with two rooms event of a dissolution of partnership bestory and basement house with two rooms only on each floor. He said that when he purchased the house the water rent was \$3.50, but now, he says, it has been increased to \$11.32 a year.

The matter was referred to the Water Department, and George F. Green, the Registrar, announces that last mouth he reported adversely upon an application from Mr. McCalley to refund a portion of the rent paid for 23-foot frontage, because the bill as then stated was in conformity with the regulations. Continuing, Mr. Green says:

"It appears that this is a case where the water rent, according to the regulations is greatly in excess of what it should be, for which reason I recommend that the office be authorized to base the rating upon a frontage of fifteen feel on the alley, with the distinct understanding of any sum already paid in excess of such frontage."

Cant. Chester Harding, assistant to

Capt. Chester Harding, assistant to A SOLDIER'S CLAIM DENIED.

a Trip Not Tuken.

S. S. Kimball, Acting Comptroller of

This opinion was rendered on the appeal of James Smith from the action of the Auditor for the War Department. Smith F. E. Cleaveland, Secretary of the Co-lumbia Polytechnic Institute for the Eighth United States Cavalry, from Camp lumbia Polytechnic Institute for the Blind, 1898 H Street northwest, recently wrote to the Commissioners relative to the water rent of the institution. He enclosed a bill for the rent and asked what steps were necessary to secure exemption from the assessment on the ground that the institute is in the nature of a charitable institution.

The letter was referred to the Water Department, and George F. Green, the Registrar, has reported, calling attention to the language used in the appropriation act of June 29, 1888, which provides:

"The Commissioners of the District of Columbia are hereby authorized to furnish Potomac water without charge to orphan asylums and charity schools."

"Sighth United States Cavalry, from Camp Resident Coulable institution as Mackenzie to Havana, place of embarkation for New Orieans, La. The Auditor allowed for travel pay from Camp Mackenzie to New Orieans to Hauditor allowed for travel pay from Camp Mackenzie to New Orieans Mackenzie to New Orieans (Lamball Mackenzie) and disallowed claim for further travel pay on the ground that Smith was paid travel allowances from New Orieans to Fort Meade, South Dakota, place of enlistment, in full.

The Auditor said that there is no law authorizing payment of travel allowances for the sea portion of journey from New Orieans, La. and in passing and sustaining the Auditor's action Mr. Kimball said: "As the soldier did not actually make the journey, it is immaterial whether or not the route via Neuvitas and New Orieans was practicable at the exact time of discharge."

nue, has entered a protest against the raising of the grade on Nebraska Avenue some six or seven feet, and he says that this grade has materially injured the value of the land in question.

The matter was referred to the Street Department and Morris Hacker, Superintendent of County Boads, has reported that the grade on Nebraska Avenue was fixed November 4, 1998, and that no change has been made since that time. He reports that the reason for making the grade of Nebraska Avenue as it is, is manifest upon examining grades of the bistriet. J. W. Dare, Acting Cumputing Engineer, states that the grade on Nebraska Avenue was established only after the most careful consideration of all the circumstances, and that to change it now would be inadvisable.
